

## Sesh Space Safety Disclaimer

Important User Safety Notice

Effective Use	Platform policies for app and web
Retention	Feeds 14 days / Messages 24 hours
Support	support@seshspace.com

**Important:** Sesh Space is privacy-first. Short retention and end-to-end encryption reduce what can be reviewed after content expires. Users should preserve screenshots for reports.

### 1. Personal Safety Comes First

Sesh Space is a communication platform, not a substitute for emergency services, law enforcement, legal counsel, medical care, or crisis intervention. If you believe you are in immediate danger, contact emergency services or the appropriate local authority right away.

### 2. No Real-Time Monitoring Guarantee

Sesh Space does not promise real-time monitoring of all user interactions, content, messages, reports, listings, ads, map activity, or offline plans. Temporary retention and encryption can limit the platform's ability to see or reconstruct events after they occur.

### 3. Use Care With Personal Information

Do not share your address, workplace, legal name, financial information, precise location, personal images, or other sensitive information unless you are fully comfortable doing so. Privacy-first design does not eliminate the risks created by what users voluntarily share.

### 4. Preserve Evidence Early

If another user behaves abusively or makes you uncomfortable, preserve screenshots immediately. Messages and posts may disappear automatically under the platform's short retention model.

### 5. Meetups and Offline Conduct

If you choose to meet another user offline, you do so at your own risk. Meet in public places, tell someone you trust where you are going, consider your own transportation, and stop contact if anything feels unsafe. Sesh Space does not screen every user or supervise offline interactions.

### 6. No Guarantee of User or Business Legitimacy

Although Sesh Space may take action against bad actors and may display verified business indicators, no platform can guarantee that every user, advertiser, business, listing, or profile is truthful, safe, licensed, available, or acting in good faith. Users should exercise judgment in every interaction.

## **7. Location and Map Safety**

Location features, SeshMap, nearby users, dispensary markers, directions, and business listings are provided for convenience only. They may be approximate, fuzzed, outdated, incomplete, or inaccurate. Do not rely on map features for emergency assistance, personal safety decisions, legal compliance, or proof that a business is open, licensed, or safe.

## **8. Cannabis Responsibility**

Users are responsible for understanding and following all applicable cannabis laws where they live, travel, communicate, advertise, or meet. Sesh Space does not authorize or facilitate illegal conduct, illegal transactions, unlawful distribution, impaired driving, unsafe consumption, or prohibited coordination.

## **9. Sponsored Content and Third-Party Links**

Sponsored content, advertiser profiles, dispensary listings, websites, phone numbers, directions, and external links may lead to third parties. Sesh Space does not control third-party locations, products, claims, inventory, legality, medical accuracy, or safety practices. Verify information independently.

## **10. Contact**

Safety concerns and reports may be sent to [support@seshspace.com](mailto:support@seshspace.com).
